Southbury, CT | P: +1 2032783257 | [leticia.tishy@gmail.com](mailto:leticia.tishy@gmail.com) | [linkedin.com/in/fernandes203](https://www.linkedin.com/in/fernandes203) | [github.com/duffelbagteesh](https://github.com/duffelbagteesh)

## EDUCATION

---

### University of Connecticut

Bachelor of Arts

Major in Digital Media Design with Web Interactive concentration

Cumulative GPA: 3.23/4.0

Storrs, CT

May 2024

### Naugatuck Valley Community College

Associates of Arts and Sciences

Waterbury, CT

Aug 2018 - May 2020

## WORK EXPERIENCE

---

### Uconn Digital Experience Group

Student Web Designer

Storrs, CT

May 2023 – May 2024

- Designed and developed modern user-friendly websites for researchers across Uconn campuses.
- Utilized HTML, CSS, JavaScript, PHP, along with different CMS like Aurora (our campus CMS through WordPress), and Omeka to create functional and visually appealing web pages.
- Collaborated with team members to gather requirements and ensure a responsive user-friendly interface.

## UNIVERSITY PROJECTS

---

### Travel Mate - Reddit Travel page

April 2024

- Build a fully-functioning web application using Node/Express with pages rendered on the server via Nunjucks.
- Utilized login/authentication via Auth0 along with PostgreSQL for user data and personalization databases.
- Collaborated with team members via GitHub where backend and frontend came together.

### DeezerSpleeter - Audio Separator App

Jan 2024

- Designed and implemented an audio isolating Flask application using Python deployed through a GitHub Workflows pipeline and containerized through Docker with a CI/CD to Azure cloud services.
- Utilized Spleeter pre-trained models along with TensorFlow to split music tracks into their respective component parts.

### WebAuthn Secrets- PWA file storage with authentication

Dec 2023

- Developed and deployed a responsive PWA (Progressive Web App) using Glitch hosting platform, a simple Node app built on Express integrating WebAuthn API to enable passwordless authentication through device authentication system.

## ADDITIONAL

---
